

39. Write a program to convert minutes into years and days.

Test Data

Input the number of minutes: 3456789

Expected Output :

3456789 minutes is approximately 6 years and 210 days

```
import java.util.Scanner;
public class Exercise39 {

    public static void main(String[] Strings) {

        double minutesInYear = 60 * 24 * 365;

        Scanner scnr = new Scanner(System.in);

        System.out.print("Input the number of minutes: ");

        double min = scnr.nextDouble();

        long years = (long) (min / minutesInYear);
        int days = (int) (min / 60 / 24) % 365;

        System.out.println((int) min + " minutes is approximately " + years + "
years and " + days + " days");
    }
}
```
